The Constitution: Enduring Myths &

Hidden Truths

Amid the heat of Philadelphia summer in 1787, the delegates of the Constitutional Convention gathered to save a fledgling republic whose very existence was mired in doubt. At this pivotal moment in history, the delegates drafted a constitution that endures today as the oldest surviving national charter still in effect, But what did the framers really mean? Did they intend the Establishment Clause to merely ban a national religion or completely separate from church and state? Was the second Amendment designed to protect the rights of individuals or just militias? How much do we actually know about what transpired in Independence Hall? What Myths were later invented and accepted as law? The Surprising answers to these questions matter, not only for uncovering the truth about our history but for rethinking the laws that govern our lives today.

PRESENTER

Dr. Andrew Porwancher
Wick Cary Associate Professor
at University of Oklahoma

Dr. Andrew Porwancher is the Wick Cary Associate Professor at the University of Oklahoma, where he teaches constitutional history. He has degrees from Cambridge, Brown, and Northwestern, and has held fellowships at Oxford, Yeshiva and Princeton. Dr. Porwancher is also the recipient of the Longmire Prize for innovative teaching. His third book, "The Jewish Found Father: Alexander Hamilton's Hidden Life", will be published by Harvard University Press.

REFRESHMENTS AND SNACKS WILL BE SERVED.
